

3DAHM 2024 Montevideo URUGUAY 3-6 December 2024

INDUSTRY VISIT

3DAHM 2024 PRE-CONGRESS ACTIVITY

Guided by Pablo Sanchez

Visit Uruguayan firms active in technology transfer. **Controles SA**, produces a wide range of electronic products such as elevator and industrial controls, as well as anaesthetic monitors. **Manos de Heroes** focuses on 3D printing of prosthetic limbs for children. Prostheses are provided for free to all children needing them. **MOVI Technology for life** was founded as a result of a master's level thesis. **DINABANG** is the first dynamic dynamometer to be used in the sports field or rehab laboratories. NIB and Universidad de la República signed an MOU to commercialize worldwide. MOVI is a 3DAHM2024 sponsor.
